Subject Index

A

Absorption, miscibility and, of porcine insulin after subcutaneous injection, 6
—, subcutaneously injected short-acting insulin, injection technique and concentration, 459
Accu-Chek bG, comparative study of home blood glucose monitoring devices, 529
Actrapid, efficacy and safety of human insulin in insulin-dependent diabetes, 56*
—, immunogenicity of human insulin or pork monocomponent insulin, 43*
Acuphobia, cure in insulin-dependent diabetic patient by hypnosis, Letter, 622
Adolescence, parent/child perspectives on diabetes mellitus and effect on family and social interactions, 393
—, poorly controlled diabetes and characteristics of, 170
—, self-monitoring using Chemstrip bG and Glucometer, 166
Adults, influenza immunization and diabetes mellitus in, 475
Age, effect on prevalence of diabetic retinopathy, 149
—, parental, and incidence of insulin-dependent diabetes mellitus, Letter, 526
Age-dependent insulin secretion of endocrine pancreas in vitro from fetuses of nondiabetic and diabetic patients, 446
Alpha-glucosidase inhibition of nocturnal hypoglycemia, 483
Ambulatory peritoneal insulin infusion, long-term, treatment of brittle diabetes with portable pumps, intravenous and subcutaneous comparison, 105
Amputation, lower extremity, in diabetic individuals, Special Article, 87
Antinuclear antibody, autoimmunity, membranoproliferative glomerulonephritis, and insulin-dependent diabetes mellitus, Brief Communication, 71
Artificial beta-cell, reproducibility of insulin dosage in brittle diabetes, 112
Artificial pancreas, comparison of soluble porcine and human insulin, 40*
Autoimmunity, insulin-dependent diabetes mellitus, antinuclear antibody, and membranoproliferative glomerulonephritis, Brief Communication, 71
Autonomic nerve function, small muscle wasting of hands and diabetes mellitus, 10

B

Behavior modification, individual counseling and, in nutritional therapy of non-insulin-dependent diabetes mellitus, 50
Beta-blockers, timolol treatment after myocardial infarction in diabetic patients, 285
Beta-cell, artificial, plasma lipid levels in insulin-dependent diabetes and, 351
—, reproducibility of insulin dosage in brittle diabetes, 112
Blindness, prevention of in diabetes, Review, 608
Blood glucose, abnormal, and coronary heart disease, Puerto Rico Heart Health Program, 556
—, ADA diet and, 432
—, assessment of new visual strip, Visidex, 540, 543
—, cognitive functioning at different levels in diabetic patients, 180
—, control, reproducibility of insulin dosage by artificial beta-cell in brittle diabetes, 112
—, control, urinary excretion of N-acetyl-beta-D-glucosaminidase in children with type I diabetes mellitus, 251
—, disparity in spectrum of diabetes mellitus as incidence and prevalence, Rochester, Minnesota study, 427

*An asterisk (*) is used to indicate material that appeared in Supplement 1, International Symposium on Human Insulin.

—, fasting, normalization of, ethanol abstention and, Brief Communication, 186
—, iodine-induced artifacts in home measurement, Letter, 317
—, postprandial response to exercise, comparison of pump and injection therapy, 436
—, profile of self-monitored results with personal microcomputer, Brief Communication, 604
—, Visidex and Chemstrip bG comparison with Beckman glucose analyzer determinations, 536
Blood glucose measurement, rapid, patient performance and satisfaction, 45
—, Letter, Reply, 422
Blood glucose monitoring, comparison of Chemstrip and Visidex, 533
—, self-monitoring by adolescents using Chemstrip bG and Glucometer systems, 166
—, self-monitoring, Letter, 421
Blood glucose testing, versus urine sugar testing in metabolic control of insulin-dependent diabetic children, 378
Blood loss, acute, effect on glycosylated hemoglobin determinations in normal man, Brief Communication, 291
Book review, 425, 626
Bovine insulin, insulin-specific IgE in serum, 61*
Bovine ultralente insulin, bioavailability, Letter, 210
Brief Communications, 62, 64, 67, 71, 186, 189, 193, 291, 295, 298, 399, 402, 405, 499, 501, 504, 506, 510, 601, 604
Brittle diabetes, clinical features of, 279

C

Carbohydrates, diet and the diabetic patient, Review, 197
—, glycemic effect of different meals similar in content, using ADA exchange list, 432
—, ingestion rate and preparation, effect on oral glucose tolerance test, 441
—, serum lipids and lipoproteins during high-carbohydrate, high-fiber diet, 224
Carbohydrate homeostasis, fenfluramine effects and caloric restrictions, in lipodystrophic patients, 160
Carbohydrate intolerance, timolol treatment after myocardial infarction in diabetic patients, 285
Carbohydrate metabolism, chromium and yeast supplement effects on, 319
Cardiomyopathy, high prevalence of echocardiographic abnormalities in diabetic youth, 18
Cartoid artery disease, occlusive, diabetes mellitus and, 274
—, non-insulin-dependent diabetes and, 562
Carpal tunnel syndrome, insulin injection site change and, Letter, 211
Cataracts, prevention of in diabetes, Review, 608
Cephalosporin, new penicillin and, interference with urine glucose monitoring tests, Brief Communication, 504
Cerebrovascular disease, carotid artery occlusive disease and diabetes mellitus, 274
Chemstrip, accuracy comparison for blood glucose monitoring without a meter, 533
—, Visidex and, home monitoring by youth, Letter, 616
Chemstrip bG, comparative study of home blood glucose monitoring devices, 529
—, comparison with Beckman glucose analyzer determination of blood glucose, 536
—, correct procedures, Letter, Reply, 422
Children, blood glucose versus urine sugar testing in insulin-dependent, 378
—, limited joint mobility in diabetic, 370
—, mothers' problems in diabetic management of, 548
—, nocturnal rise in cortisol profile during 24-h test in diabetic, Brief Communication, 506
—, self-management in, 552
—, Teledyne Sleep Sentry, use in detection of nocturnal hypoglycemia, 597
—, urinary excretion of N-acetyl-beta-D-glucosaminidase in type I diabetes mellitus, 251
Chlorpropamide-induced hyponatremia, incidence and risk factors, 468
Chromium, yeast supplements and, effect on carbohydrate and lipid metabolism, 319
Clinical trials, Why randomize?, Letter, 101
Clinical type, incidence of diabetes mellitus by, Rochester, Minnesota, Special Article, 75
Clinician communication, diabetic patients' comprehension and, 347
Color vision, prediction of diabetic retinopathy from clinical variables and, 144
Commentary, 92
Congestive heart failure, complication of improved diabetic control, Letter, 419
Continuous subcutaneous insulin infusion, clinical features of unresponsive brittle diabetic patients, 279
—, miniature infuser and, 452
—, pharmacokinetics of, and subcutaneous injection, 35*
—, plasma glucose and plasma free insulin, comparison, 1
—, scale units to insulin units, Letter, 621
—, using intravenous and intraperitoneal sites, exercise and, 122
—, sulfated beef insulin, efficacy of, Letter, 620
Coronary artery disease, high prevalence of echocardiographic abnormalities in diabetic youths, 18
Coronary heart disease, abnormal blood glucose and, Puerto Rico Heart Health Program, 556
Corticosteroid therapy, steroid diabetes characteristics in renal-transplant recipients on high-dose therapy, 23
Cortisol profiles, 24-h, nocturnal rise in diabetic children, Brief Communication, 506
Counseling, individual, behavior modification and, in nutritional therapy of non-insulin-dependent diabetes mellitus, 50
C-peptide, clinical criteria that reflect status in idiopathic diabetes, Letter, 315
—, factitious hypoglycemia from sulfonylurea, Letter, 314

—, immunoreactive, insulin dependency and, Letter, 314
—, urinary, as measure of beta-cell function, postprandial comparison in normal man, 488

D

Dawn phenomenon, intensified therapy and, Letter, Reply, 525
Diabetes control, complications and, Editorial, 310
Diabetes mellitus, adolescent, parent/child perspectives, 393
—, cerebrovascular disease and, carotid artery occlusive disease and, 274
—, evolution of human insulin in therapy of, 1*
—, incidence and prevalence, disparity of source, Rochester, Minnesota study, 427
—, incidence by clinical type, Rochester, Minnesota, Special Article, 75
—, influenza immunization in adults with, 475
—, mortality study in two clinic populations, Georgia/Tennessee, 341
—, optic atrophy and, in two siblings, report and review, Brief Communication, 67
—, prevalence in traditional-living Polynesian population, Wallis Island, 334
—, registered nurses' knowledge of, 57
—, scleredema diabeticorum, cutaneous manifestation of, Brief Communication, 189
—, small muscle wasting of hands, 10
—, uncontrolled, ketoacidosis and hyperosmolar nonketotic coma treatments, 579
Diabetes Patient Knowledge Test, validation of, 591
Diabur-Test 5000, evaluation of test strip for self-monitoring of urinary glucose, 213
Diagnosis, classification and, full terminology, Letter, 312
Dialysis, pregnancy and continuous ambulatory peritoneal, Brief Communication, 298
Diarrhea, metformin and, in diabetic clinic, 472
Diet, alpha-glucosidase inhibition of nocturnal hypoglycemia, 483
—, chromium and yeast supplement effects on carbohydrate and lipid metabolism, 319
—, diabetic patient and, Review, 197
—, effects and fenfluramine, on carbohydrate homeostasis in lipodystrophic patients, 160
—, glycemic effect of different ADA exchange lists, 432
—, glycemic response to wheat products, 155
—, hypocaloric, high-protein therapy for obesity-related adult diabetes, 328
—, insulin pump and multiple daily injection therapy and, 241
—, long-term use of high-complex carbohydrate, high-fiber, low-fat diet and exercise in non-insulin-dependent diabetes, 268
—, prevalence of diabetes mellitus in Wallis Island, Polynesia, 334
—, quantitative assessment in patients with insulin-dependent diabetes mellitus, 245
—, serum lipids and lipoproteins in insulin-dependent diabetes during high-carbohydrate, high-fiber diet, 224
—, timing of preprandial subcutaneous insulin infusion, 374
Drugs, sugar content of selected, 231

E

Echocardiography, high prevalence of abnormalities in diabetic youths, 18
Editorials, 100, 208, 310, 417, 521, 614
Education, clinician communication and patient comprehension, 347
—, comments on patient education programs, Letter, 618
—, controlled trial effects in treatment of insulin-dependent diabetes, 256
—, defining and evaluating diabetes patient, Letter, Reply, 619, 620
—, diet management and quantitative assessment of dietary adherence, 245
—, importance of intensive supervision in determining efficacy of insulin pump therapy, Brief Communication, 295
—, potential barriers to diabetes care, Brief Communication, 499
—, registered nurses' knowledge about diabetes mellitus, 57
—, validation of diabetes patient knowledge test, 591
Epidemiology, lower extremity amputation in diabetic individuals, Special Article, 87
Epinephrine, glucagon and, critical roles in glucose counterregulatory systems, Review, 95
Ethanol abstention, normalization of fasting blood glucose levels and, Brief Communication, 186
Exercise, effect of continuous insulin infusion during, 122
—, long-term use of high-complex-carbohydrate, high-fiber, low-fat diet and, in non-insulin-dependent diabetes, 268
—, postprandial blood glucose response, comparison of pump and injection therapy, 436
—, postprandial, open-loop intravenous insulin waveforms and, in type I diabetes, 129

F

Fat cells, insulin resistance in, 586
Fenfluramine, effects and caloric restrictions on carbohydrate homeostasis in lipodystrophic patients, 160
Fetal hyperinsulinemia, age-dependent insulin secretion in diabetic and nondiabetic patients, 446
Fiber, diet and diabetic patient, Review, 197
—, dietary effects on glycemic response to wheat products, 155
—, serum lipids and lipoproteins during high-fiber, high-carbohydrate diet, 224

Foot pressure, studies in diabetic neuropathy, 26
Fournier's syndrome, ketoacidotic diabetes after intrascrotal insulin injections because of impotence, Brief Communication, 601

G

Gastroparesis, placebo-controlled trial of oral metoclopramide, 463
Glaucoma, prevention of in diabetes, Review, 608
Glomerulonephritis, chronic, abnormal glucose tolerance in patients without renal failure, 381
—, membranoproliferative, and autoimmunity, antinuclear antibody, and insulin-dependent diabetes mellitus, Brief Communication, 71
Glucagon, epinephrine and, critical roles in glucose counterregulatory systems, Review, 95
Glucometer, comparative study of home blood glucose monitoring devices, 529
—, self-monitoring, comparison with Glucoscan and Hypocount B, 262
Glucoscan, self-monitoring, comparison with Glucometer and Hypocount B, 262
Glucose, and trigylceride concentrations, macroangiopathy in WHO multinational study, 361
—, clamp technique, activity and pharmacokinetic comparison of porcine and human insulin, 23*
—, control, glycosylated serum protein and hemoglobin as indices of, 34
—, control, guar gum and, of pregnant insulin-dependent diabetic patients, 152
—, counterregulatory systems, critical roles of glucagon and epinephrine, Review, 95
—, measurement, rapid blood measurement systems, patient performance and satisfaction, 45
—, response to wheat products, reduced response to pasta, 155
—, urine measurements, validity for estimating plasma glucose concentration, 40
Glucose tolerance, abnormal, in patients with chronic glomerulonephritis without renal failure, 381
—, effect of thyroid disease in normal man, Review, 512
—, lipoprotein composition in impaired tolerance, 575
—, relaxation effects in non-insulin-dependent diabetes, 176
Glucose tolerance test, oral, age and sex and, Brief Communication, 405
—, rate of ingestion and carbohydrate, effect of, 441
Glucose-controlled insulin infusion, comparison of porcine and human insulin, 29*
Glucose-insulin dose-response curves, comparison of human and porcine insulin, 29*
Glycerol, prevention of insulin precipitation in implantable insulin infusion pump, 387
Glycosylated hemoglobin, acute blood loss effects in normal man, Brief Communication, 291
—, hemoglobinopathy as complicating factor in measurement of, Letter, 524
Glycosylated serum protein, hemoglobin and, two indices of glycemic control, 34
—, intermediate index of diabetic control, Brief Communication, 501
Guar gum, glycemic control and, of pregnant insulin-dependent diabetes, 152

H

Hand abnormalities, relationship to diabetes and retinopathy, 140
Hemoglobin, glycosylated, acute blood loss effects in normal man, Brief Communication, 291
—, serum protein and, two indices of glycemic control, 34
Home glucose monitoring, Chemstrip and Visidex, preference of youth, Letter, 616
—, two views, Letter, 618
Human insulin (Novo), chemistry and characteristics, 4*
—, comparative clinical pharmacology in normal man, 17*
—, comparison of activity and pharmacokinetics with porcine insulin, by glucose clamp technique, 23*
—, comparison with porcine insulin, metabolism and hypoglycemic activity in normal man, 9*
—, comparison with porcine insulin using glucose-controlled insulin infusion, glucose-insulin dose-response curves, 29*
—, comparison with soluble porcine using artificial pancreas, 40*
—, efficacy and safety in insulin-dependent diabetes, 53*, 56*
—, immunogenicity of, or pork monocomponent insulin, 43*
—, insulin-specific IgE in serum, 61*
—, international symposium on, 1*
—, international symposium, summary, 66*
—, metabolic profiles in diabetic subjects treated with porcine and, 49*
—, subcutaneous injection, pharmacokinetics and continuous infusion therapy, 35*
Human studies, insulin receptor assays and, merits and limitations, Review, 301
Hyperglycemia, cognitive functioning during, 180
—, early-morning, and individuals treated with continuous subcutaneous insulin infusion, 135
—, ketoacidosis without, during self-monitoring, Letter, 622
—, stroke and, Letter, 419
Hyperosmolar nonketotic coma, uncontrolled diabetes mellitus in adults, ketoacidosis and, 579
Hypnosis, cure of acuphobia by, Letter, 622
Hypocount B, self-monitoring, comparison with Glucometer and Glucoscan, 262
Hypoglycemia, cognitive functioning during, 180

—, coma associated with continuous subcutaneous insulin infusion, Letter, 316
—, hypothermia and, Letter, 211
—, metabolism and, comparison of porcine and human insulin, 9*
—, nocturnal, alpha-glucosidase inhibition of, 483
—, nocturnal, Teledyne Sleep Sentry, use in pediatric patients, 597
—, severe, during maximized insulin treatment of diabetes, Brief Communication, 62
Hyponatremia, chlorpropamide-induced, incidence and risk factors, 468

I

Immunogenicity studies, chemistry and characteristics of human insulin, 4*
Immunogenicity, human insulin of pork monocomponent insulin, 43*
Immunoreactive C-peptide levels, insulin dependency and, Letter, 314
Immunotherapy, type I diabetes and, Editorial, 521
Implantable insulin delivery devices, treatment with, Letter, 527
Impotence, Fournier's syndrome in ketoacidotic diabetic patient after intrascrotal insulin injections, Brief Communication, 601
—, presenting symptom of presumed prolactinoma, diabetes mellitus and, Brief Communication, 510
Influenza immunization, diabetes mellitus in adults and, 475
Insulin, dosage, reproducibility, by artificial beta-cell in brittle diabetes, 112
—, human, chemistry and characteristics of, 4*
—, human, international symposium on, 1*
—, human, international symposium, summary, 66*
—, (^{125}I)-labeled, receptor assays and human studies, merits and limitations, Review, 301
—, low-dose, uncontrolled diabetes mellitus in adults, ketoacidosis and hyperosmolar nonketotic coma, 579
—, multiple daily injection, diets for, 241
—, receptor assays, human studies and, merits and limitations, Review, 301
—, resistance, fat cells from insulin-treated type I diabetic individuals, 586
—, soluble, absorption of subcutaneously injected short-acting, 459
Insulin infusion, clinical features of unresponsive brittle diabetic patients, 279
—, comparison of plateau levels of intravenous or subcutaneous infusion, low rates of subcutaneous degradation, 118
—, continuous subcutaneous, early-morning hyperglycemia and, 135
—, exercise and, subcutaneous, intravenous, and intraperitoneal sites, 122
—, glycerol prevention of insulin precipitation and interruption of flow in implantable pump, 387
—, miniature infuser, 452
—, open-loop, and postprandial exercise, in type I diabetes, 129
—, overnight metabolic control with pulsed intermittent versus continuous subcutaneous infusion, 356
Insulin injection, intrascrotal, Fournier's syndrome in ketoacidotic patient with impotence, Brief Communication, 601
—, reversal of carpal tunnel syndrome by change of site, Letter, 211
Insulin treatment, postreceptor defect and, Letter, 102
—, severe hypoglycemia during, Brief Communication, 62
Insulin-compatible materials, Letter, 526
Insulin-dependent diabetes mellitus, adherence to regimen, psychosocial variables, metabolic control and, 493
—, artificial beta-cell control on plasma lipid levels, 351
—, comparison of porcine and human insulin using glucose-controlled infusion, glucose-insulin dose-response curves, 29*
—, controlled trial on effects of patient education, 256
—, efficacy and safety of human insulin, 53*, 56*
—, evaluation of Chemstrip bG and Glucometer systems of self-monitoring by adolescents, 166
—, exercise and continuous insulin infusion, 122
—, genetic linkage between Kidd and, Letter, 421
—, immunogenicity of human insulin or pork monocomponent insulin, 43*
—, incidence by clinical type, Rochester, Minnesota, Special Article, 75
—, limited joint mobility in children, 370
—, parental age and, Letter, 526
—, pregnancy, guar gum, and glycemic control, 152
—, prevention of congenital malformation, 219
—, quantitative assessment of dietary adherence, 245
—, serum lipids and lipoproteins during high-carbohydrate, high-fiber diet, 224
Insulin-specific IgE, in serum of diabetic patients against human, porcine, and bovine insulin, case reports, 61*
Intensified conventional treatment, continuous insulin infusion and, Letter, 210
International symposium on human insulin, 1*

K

Ketoacidosis, uncontrolled diabetes mellitus in adults, hyperosmolar nonketotic coma and, 579
—, without hyperglycemia during self-monitoring, Letter, 622
Kidney, abnormal glucose tolerance in patients with chronic glomerulonephritis without renal failure, 381
—, normo-osmolar, nonketotic, hyponatremic diabetic syndrome and impaired renal function, Brief Communication, 402

—, steroid diabetes characteristics in renal-transplant recipients on high-dose corticosteroid therapy, 23

L
Letters to the Editor, 101, 102, 210, 211, 312–317, 419–423, 524–527, 616–623
Lipid disorders, diabetes and, Editorial, 417
Lipid metabolism, chromium and yeast supplement effects on, 319
Lipid status, improvement in diabetic boys, Brief Communication, 64
Lipodystrophy, fenfluramine and caloric restriction effects on carbohydrate homeostasis, 160
Lipoprotein, composition with impaired glucose tolerance, 575
—, serum lipids and, in insulin-dependent diabetes during high-carbohydrate, high-fiber diet, 224

M
Macroangiopathy, diabetes-related, in WHO multinational study, 361
Manufacturer, sugar content of selected drugs by manufacturer, 231
Manuscript review, Editorial, 208
Massage, improved serum insulin profiles with massage of injection sites, Brief Communication, 399
Media, diabetes in national TV news, 1971–1981, Commentary, 92
Metabolic control, adherence to insulin-dependent diabetes mellitus regimen, psychosocial variables and, 493
—, adolescents with poorly controlled diabetes, and, 170
—, overnight, with pulsed intermittent versus continuous subcutaneous insulin infusion, 356
Metabolic profiles, human and porcine insulin, 49*
Metabolism, chromium and yeast supplement effects on carbohydrate and lipid, 319
—, hypoglycemic activity and, comparison of porcine and human insulin, 9*
—, prevention of congenital malformation in insulin-dependent diabetes pregnancy, 219
Metformin, diarrhea and, in diabetic clinic, 472
Metoclopramide, oral, clinical trial in diabetic gastroparesis, 463
Microcomputer, profiling self-monitored blood glucose results with, Brief Communication, 604
Minority study, mortality in two clinic populations with patients with diabetes mellitus, 341
Monocytes, phagocytotic activity in diabetic patients, 479
Monotard, efficacy and safety of human insulin in insulin-dependent diabetes, 56*
—, immunogenicity of human insulin or pork monocomponent insulin, 43*
Mortality study, two clinic populations with diabetes mellitus, 341
Muscle, small, wasting of, and diabetes mellitus, 10
Myocardial infarction, timolol treatment in diabetic patients after, 285

N
Neuropathy, dynamic foot pressure as management and diagnostic aids, 26
—, pyridoxine and, Letter, 102
Nocturnal hypoglycemia, Teledyne Sleep Sentry, use in pediatric patients, 597
—, urinary cortisol-creatinine ratio and, Letter, 623
Non-insulin-dependent diabetes, behavior modification and individual counseling in nutritional therapy of, 50
—, carotid artery disease and, 562
—, effects of relaxation on glucose tolerance, 176
—, incidence by clinical type, Rochester, Minnesota, Special Article, 75
—, long-term use of diet and exercise, 268
Nursing, knowledge about diabetes mellitus and registered nurses, 57
Nutrition, behavior modification and individual counseling of non-insulin-dependent diabetes mellitus, 50
—, improvement of lipid status in diabetic boys, Brief Communication, 64

O
Obesity, hypocaloric, high-protein diet as primary therapy in adults with, 328
—, prevalence of diabetes mellitus in Wallis Island, Polynesia, 334
Open-loop intravenous insulin waveforms, postprandial exercise and, in type I diabetes, 129
Optic atrophy, two siblings, report and review, Brief Communication, 67
Oral glucose tolerance tests, age and sex and, Brief Communication, 405
—, effect of rate of ingestion and carbohydrate ingested, 441
Oral metoclopramide, clinical trial in diabetic gastroparesis, 463
Organization Section, xxvi, xxii, xxxi, xxv, xxvi, xxxiii

P
Pancreas, artificial, comparison of soluble porcine and human insulin, 40*
Pancreatectomy, retinopathy in patients with secondary diabetes following, 570
Pancreatitis, chronic, retinopathy in patients with secondary diabetes and, 570
Patient education, controlled trial on effect of, 256
Patient knowledge, validation of Diabetes Patient Knowledge Test, 591
Patient performance, satisfaction and, with rapid blood glucose measurement systems, 45

Penicillin, new, cephalosporins and, interference with urine glucose monitoring tests, Brief Communication, 504
Peripheral autonomic nerve function, small muscle wasting and diabetes mellitus, 10
Peripheral diabetic neuropathy, dynamic foot pressure and, 26
Peripheral insulin infusion, portable pumps, comparison with peritoneal infusion in brittle diabetes, 105
Peripheral joint mobility, hand abnormalities and diabetic retinopathy, 140
—, limited in insulin-dependent diabetic children, 370
Peritoneal insulin infusion, portable pumps, comparison with peripheral infusion in brittle diabetes, 105
Phagocytosis, monocytic activity in diabetic patients, 479
Pharmaceuticals, sugar content of selected, 231
Pharmacokinetics, porcine and human insulin, comparison by glucose clamp technique, 23*
Pharmacology, human insulin and porcine insulin in normal man, 17*
—, human insulin in normal subjects, 13*
Plasma free insulin, plasma glucose and, during continuous subcutaneous insulin infusion, 1
Plasma glucose, carotid artery disease and non-insulin-dependent diabetes, 562
—, plasma free insulin and, comparison during continuous subcutaneous insulin infusion, 1
—, urine glucose measurements, validity for estimating concentration of, 40
Plasma lipid levels, artificial beta-cell control in insulin-dependent diabetes, 351
Porcine insulin, absorption and miscibility, after subcutaneous injection, 6
—, clinical pharmacology of human insulin in normal man, 13*
—, comparative clinical pharmacology in normal man, 17*
—, comparison of activity and pharmacokinetics with human insulin, by glucose clamp technique, 23*
—, comparison of biologic activity with semisynthetic human insulin, Brief Communication, 193
—, comparison with human insulin, metabolism and hypoglycemic activity in normal man, 9*
—, comparison with human insulin using glucose-controlled insulin infusion, glucose-insulin dose-response curves, 29*
—, insulin-specific IgE in serum, 61*
—, metabolic profiles in diabetic subjects treated with human in, 49*
Pork monocomponent insulin, immunogenicity of, or human insulin, 43*
Pregnancy, age-dependent insulin secretion of endocrine pancrease in vitro from fetuses of diabetic and nondiabetic patients, 446
—, congenital malformation prevention in insulin-dependent diabetic mothers, 219
—, continuous ambulatory peritoneal dialysis and diabetic patient, Brief Communication, 298
—, guar gum and glycemic control and, 152
Preprandial subcutaneous insulin infusion, management of diabetes mellitus and, 374
Prolactinoma, presumed, impotence as presenting symptom, diabetes mellitus and, Brief Communication, 510
Protein, glycemic effect of different meals similar in content, using ADA exchange lists, 432
—, high-protein, hypocaloric diet, obesity related adult diabetes and, 328
—, synthesis increase during phagocytosis, 479
Psychology, adherence to insulin-dependent diabetes mellitus regimens and, 493
—, characteristics of adolescents with poorly controlled diabetes, 170
—, coping with crises of diabetes, Review, 409
—, mothers' problems in management of diabetic children, 548
—, parent/child perspectives on adolescent diabetes mellitus, 393
Puerto Rico Heart Health Program, abnormal blood glucose and coronary heart disease, 556
Pump, implantable, glycerol prevention of insulin precipitation and interruption of flow, 387
—, intensive supervision in determining efficacy of insulin pump therapy, Brief Communication, 295
—, miniature insulin infusion, 452
—, multiple daily injection therapy and, diets for, 241
—, portable, long-term ambulatory peritoneal infusion, intravenous and subcutaneous comparison, 105
—, postprandial blood glucose response to exercise, comparison with injection therapy, 436
Pyridoxine, diabetic neuropathy and, Letter, 102

R

Rapid blood glucose measurement systems, patient performance and satisfaction, 45
Relaxation, glucose tolerance and, in non-insulin-dependent diabetes, 176
Retinopathy, clinical variables, color vision data, and 144
—, color vision data and prediction of, Letter, 621
—, prevention of in diabetes, Review, 608
—, relationship of hand abnormalities to diabetes and, 140
—, secondary diabetes following pancreatectomy or chronic pancreatitis, 570
—, sex, age, disease duration, and therapy effects on diabetic, 149
Reviewers, 213
Reviews, 95, 197, 301, 409, 512, 608

S

Scleredema diabeticorum, cutaneous manifestation of diabetes mellitus, Brief Communication, 189
Self-management, diabetic children and, 552
Self-monitoring, blood glucose, Letter, 421
—, Chemstrip bG and Glucometer comparison in trained insulin-dependent adolescents, 166

—, comparison of Glucometer, Glucoscan, and Hypocount B, 262
—, comparison of Visidex, Chemstrip bG, Glucometer, and Accu-Chek bG, 529
—, evaluation of Diabur-Test 5000, test strip for urinary glucose measurement, 213
—, iodine-induced artifacts in home blood glucose measurement, Letter, 317
—, profiling blood glucose results with personal microcomputer, Brief Communication, 604
—, use of Visidex, Editorial, 614
Semisynthetic human insulin, comparison of biologic activity with porcine insulin, Brief Communication, 193
Serum albumin, glycosylated, intermediate index of diabetic control, Brief Communication, 501
Serum insulin, profiles, massage of insulin injection sites, Brief Communication, 399
—, urinary C-peptide as measure of beta-cell function, postprandial in normal man, 488
Serum lipids, lipoproteins and, in insulin-dependent diabetes during high-carbohydrate, high-fiber diet, 224
Serum protein, glycosylated, hemoglobin and, two indices of glycemic control, 34
Sex, effect on prevalence of diabetic retinopathy, 149
Skyler, Jay, Dr., and *Diabetes Care*, Editorial, 100
Soluble porcine insulin, comparison with human insulin using artificial pancreas, 40*
Special Articles, 75, 87
Steroid diabetes, characteristics of, in renal-transplant recipients on high-dose corticosteroid therapy, 23
Subcutaneous insulin infusion, comparison of plateau levels with intravenous infusion, low rates of subcutaneous degradation, 118
—, continuous, early-morning hyperglycemia and, 135
—, long-term ambulatory peritoneal insulin infusion of brittle diabetes with portable pumps, comparison with intravenous route, 105
—, overnight metabolic control with pulsed intermittent versus continuous, 356
—, preprandial timing in management of diabetes mellitus, 374
Subcutaneous insulin injection, absorption of short-acting soluble insulin, 459
—, human insulin, clinical pharmacology of, in normal man, 13*
—, pharmacokinetics of regular human insulin, 35*
—, porcine insulin, absorption and miscibility after, 6
Subcutaneous insulin therapy, clinical features of unresponsive brittle diabetic patients, 279
Sucrose, diet and diabetic patient, Review, 197
Sugar content of selected pharmaceuticals, 231

T

Teledyne Sleep Sentry, pediatric patient evaluation of nocturnal hypoglycemia, 597
Television, diabetes in national news, 1971–1981, Commentary, 92
Thyroid disease, diabetes mellitus and, Review, 512
Timolol, treatment after myocardial infarction in diabetic patients, 285
Transpeptidation, efficacy and safety of human insulin in insulin-dependent diabetes, 56*
—, reaction, chemistry and characteristics of human insulin, 4*
Triglyceride, and glucose concentrations, macroangiopathy in WHO multinational study, 361
Type I diabetes, immunotherapy and, Editorial, 521
—, insulin resistance in fat cells from insulin-treated diabetic individuals, 586

U

Ulceration, dynamic foot pressure and diabetic neuropathy, 26
Urinary cortisol-creatinine ratio, nocturnal hypoglycemia and, Letter, 623
Urinary glucose, evaluation of Diabur-Test 5000, test strip for self-monitoring, 213
Urine, C-peptide, as measure of beta-cell function, postprandial comparison in normal man, 488
—, excretion of N-acetyl-beta-D-glucosaminidase in children with type I diabetes mellitus, 251
—, glucose monitoring tests, new penicillin and cephalosporin interference, Brief Communication, 504
—, glucose, validity for estimating plasma glucose concentration, 40
—, pH and chlorpropamide elimination, Letter, 313
—, sugar testing, versus blood glucose testing in insulin-dependent diabetic children, 378

V

Visidex, accuracy comparison for blood glucose monitoring without a meter, 533
—, Chemstrip and, home monitoring by youth, Letter, 616
—, comparative study of home blood glucose monitoring devices, 529
—, comparison with Beckman glucose analyzer determination of blood glucose, 536
—, evaluation, Letter, 617
—, use for blood glucose self-monitoring, Editorial, 614

Y

Yeast, chromium and, effects on carbohydrate and lipid metabolism, 319

Volume Contents

JANUARY-FEBRUARY 1983/VOLUME 6/NUMBER 1

ORIGINAL ARTICLES

Comparison of Plasma Glucose and Plasma Free Insulin During CSII and Intensified Conventional Insulin Therapy—M. BUYSSCHAERT, E. MARCHAND, J. M. KETELSLEGERS, AND A. E. LAMBERT—**1**

Absorption and Miscibility of Regular Porcine Insulin After Subcutaneous Injection of Insulin-treated Diabetic Patients—K. KØLENDORF, J. BOJSEN, AND T. DECKERT—**6**

Small Muscle Wasting of the Hands in Diabetes Mellitus—DAVID Q. BORSEY, ROGER E. CULL, DAVID M. FRASER, DAVID J. EWING, IAN W. CAMPBELL, AND BASIL F. CLARKE—**10**

High Prevalence of Echocardiographic Abnormalities in Diabetic Youths—ZUHDI A. LABABIDI AND DAVID E. GOLDSTEIN—**18**

Some Characteristics of Steroid Diabetes: A Study in Renal-Transplant Recipients Receiving High-Dose Corticosteroid Therapy—PETER ARNER, ROLF GUNNARSSON, SVEN BLOMDAHL, AND CARL-GUSTAV GROTH—**23**

Dynamic Foot Pressure and Other Studies as Diagnostic and Management Aids in Diabetic Neuropathy—ANDREW J. M. BOULTON, COLIN A. HARDISTY, RODERIC P. BETTS, CHRISTOPHER I. FRANKS, RICHARD C. WORTH, JOHN D. WARD, AND THOMAS DUCKWORTH—**26**

Comparison of Two Indices of Glycemic Control in Diabetic Subjects: Glycosylated Serum Protein and Hemoglobin—THOMAS D. MEHL, S. E. WENZEL, B. RUSSELL, D. GARDNER, AND T. J. MERIMEE—**34**

Validity of Urine Glucose Measurements for Estimating Plasma Glucose Concentration—JOHN T. HAYFORD, JOY A. WEYDERT, AND ROBERT G. THOMPSON—**40**

An Evaluation of Patient Performance of and Their Satisfaction with Various Rapid Blood Glucose Measurement Systems—PAMALA K. FAIRCLOUGH, REX S. CLEMENTS, JR., DAVID V. FILER, AND DAVID S. H. BELL—**45**

A Randomized Clinical Trial Comparing Behavior Modification and Individual Counseling in the Nutritional Therapy of Non-insulin-dependent Diabetes Mellitus: Comparison of the Effect on Blood Sugar, Body Weight, and Serum Lipids—SIMON W. RABKIN, EVELYN BOYKO, ALLAN WILSON, AND DAN A. STREJA—**50**

Registered Nurses' Knowledge About Diabetes Mellitus—SANDRA D. SCHEIDERICH, CAROL N. FREIBAUM, AND LEONA M. PETERSON—**57**

BRIEF COMMUNICATIONS

Severe Hypoglycemia During Maximized Insulin Treatment of Diabetes in a Randomized Clinical Trial—JOSE BARBOSA AND SANDRA JOHNSON—**62**

Improvement of Lipid Status in Diabetic Boys: The 1971 and 1979 Joslin Camp Lipid Levels—MARC H. BLANC, OM P. GANDA, RAY E. GLEASON, AND J. STUART SOELDNER—**64**

Diabetes Mellitus and Optic Atrophy in Two Siblings: A Report on a New Association and a Review of the Literature—ROMESH KHARDORI, JOHN W. STEPHENS, OTTO C. PAGE, AND ROBERT S. DOW—**67**

Association of Type I (Insulin-dependent) Diabetes Mellitus, Autoimmunity, Antinuclear Antibody, and Membranoproliferative Glomerulonephritis—S. SRIKANTA, A. N. MALAVIYA, P. RAJAGOPALAN, U. N. BHUYAN, AND M. M. S. AHUJA—**71**

INTERNATIONAL SYMPOSIUM ON HUMAN INSULIN/J. H. KARAM AND D. D. ETZWILER, EDITORS

Introduction: Evolution of Human Insulin in the Therapy of Diabetes Mellitus—JOHN H. KARAM—1
Human Insulin (Novo): Chemistry and Characteristics—JAN MARKUSSEN, ULRIK DAMGAARD, MARIANNE PINGEL, LEO SNEL, ANDERS R. SØRENSEN, AND ELSE SØRENSEN—4
Porcine and Human Insulin (Novo): A Comparison of Their Metabolism and Hypoglycemic Activity in Normal Man—RODNEY O. C. ADENIYI-JONES, RICHARD H. JONES, DAWN G. BARNES, LAURENCE S. GERLIS, AND PETER H. SÖNKSEN—9
The Clinical Pharmacology of Human Insulin (Novo) in Normal Subjects—D. R. OWENS, M. K. JONES, A. J. BIRTWELL, I. R. JONES, T. M. HAYES, AND L. G. HEDING—13
Comparative Clinical Pharmacology of Human Insulin (Novo) and Porcine Insulin in Normal Subjects—AKIO EBIHARA, KAZUOKI KONDO, KYOICHI OHASHI, KINORI KOSAKA, TAKESHI KUZUYA, AND AYAKO MATSUDA—17
Comparison of the Activity and Pharmacokinetics of Porcine Insulin and Human Insulin (Novo) as Assessed by the Glucose Clamp Technique in Normal and Diabetic Man—P. D. HOME, G. A. A. SHEPHERD, G. NOY, M. MASSI-BENEDETTI, I. HANNING, J. M. BURRIN, AND K. G. M. M. ALBERTI—23
Comparison of Porcine Insulin and Human Insulin (Novo) Using the Glucose-controlled Insulin Infusion System, Glucose-Insulin Dose-Response Curves, and the Outpatient Effectiveness of Human Insulin (Novo) in Insulin-dependent Diabetes—M. ARTHUR CHARLES, AGNES SZEKERES, MYRLENE STATEN, BEVERLY WORCESTER, AND KATHLEEN M. WALSH—29
Subcutaneous Use of Regular Human Insulin (Novo): Pharmacokinetics and Continuous Insulin Infusion Therapy—GABRIELE E. SONNENBERG, F. W. KEMMER, HANS-J. CÜPPERS, AND MICHAEL BERGER—35
Comparative Analysis of Soluble Porcine and Human Insulin (Novo) Using the Artificial Pancreas—J. MIROUZE, O. BENGHERNAOUT, T. C. PHAM, J. L. RICHARD, AND J. BRINGER—40
Immunogenicity of Human Insulin (Novo) or Pork Monocomponent Insulin in HLA-DR-Typed Insulin-dependent Diabetic Individuals—G. SCHERNTHANER, M. BORKENSTEIN, M. FINK, W. R. MAYR, J. MENZEL, AND E. SCHOBER—43
Metabolic Profiles in Diabetic Subjects Treated with Human Insulin (Novo) and Porcine Insulin—STEPHEN COLAGIURI, MARK A. KOTOWICZ, ALFRED W. STEINBECK, AND WARREN KIDSON—49
The Efficacy and Safety of Human Insulin (Novo) in Insulin-dependent Diabetic Patients—J. LYNGSØE AND S. VESTERMARK—53
Evaluation of Efficacy and Safety of Human Insulin (Novo) in the Treatment of Insulin-dependent Diabetes Mellitus: A Double-blind, Multicenter Clinical Trial—JOHN KARAM, STUART BRINK, REX CLEMENTS, LEONA MILLER, AND PHILIP RASKIN—56
Insulin-Specific IgE in Serum of 67 Diabetic Patients Against Human Insulin (Novo), Porcine Insulin, and Bovine Insulin. Four Case Reports—K. FALHOLT, J. A. M. HOSKAM, B. G. KARAMANOS, H. SÜSSTRUNK, M. VISWANATHAN, AND L. G. HEDING—61
International Symposium on Human Insulin: A Summary—DONNELL D. ETZWILER—66

MAY-JUNE 1983/VOLUME 6/NUMBER 3

ORIGINAL ARTICLES

Evaluation of Diabur-Test 5000: A Cooperative Study Carried Out at 12 Diabetes Centers—D. BANAUCH, P. U. KOLLER, AND W. BABLOK—213
Prevention of Congenital Malformations in Infants of Insulin-dependent Diabetic Mothers—KURT FUHRMANN, HORST REIHER, KLAUS SEMMLER, FRIEDERICKE FISCHER, MICHAEL FISCHER, AND EBERHARD GLÖCKNER—219
Serum Lipids and Lipoproteins in Insulin-dependent Diabetic Subjects During High-Carbohydrate, High-Fiber Diet—MARJA-RIITTA TASKINEN, ESKO A. NIKKILÄ, AND ANNELI OLLUS—224
Sugar Content of Selected Pharmaceuticals—PAUL F. SOUNEY, DALE A. CYR, JACOB T. CHANG, AND ALAN F. KAUL—231
Diets for Insulin Pump and Multiple Daily Injection Therapy—MARYANNE GRINVALSKY AND DAVID M. NATHAN—241
Quantitative Assessment of Dietary Adherence in Patients with Insulin-dependent Diabetes Mellitus—NEDRA K. CHRISTENSEN, R. DALE TERRY, SHARON WYATT, JAMES W. PICHERT, AND RODNEY A. LORENZ—245
Urinary Excretion of N-Acetyl-Beta-D-Glucosaminidase in Children with Type I Diabetes Mellitus—EILEEN N. ELLIS, BEN H. BROUHARD, LAVENIA LAGRONE, AND LUTHER B. TRAVIS—251
A Controlled Trial on the Effects of Patient Education in the Treatment of Insulin-dependent Diabetes—TIMO KORHONEN, JUSSI K. HUTTUNEN, ANTTI ARO, MAIJA HENTINEN, OLLI IHALAINEN, HELEENA MAJANDER, ONNI SIITONEN, MATTI UUSITUPA, AND KALEVI PYÖRÄLÄ—256
Self Glucose Monitoring: A Comparison of the Glucometer, Glucoscan, and Hypocount B—JILL D. NELSON, MARY A. WOELK, AND SAM SHEPS—262
Long-Term Use of a High-Complex-Carbohydrate, High-Fiber, Low-Fat Diet and Exercise in the Treatment of NIDDM Patients—R. JAMES BARNARD, MANZOOR R. MASSEY, SAMUEL CHERNY, LYNNE TREXLER O'BRIEN, AND NATHAN PRITIKIN—268
Diabetes Mellitus and Cerebrovascular Disease: Prevalence of Carotid Artery Occlusive Disease and Associated Risk Factors in 482 Adult Diabetic Patients—THOMAS W. KUEBLER, PHILLIP J. BENDICK, S. EDWIN FINEBERG, OMKAR N. MARKAND, JAMES A. NORTON, JR., FRANK N. VINICOR, AND CHARLES M. CLARK—274
Clinical Features of Brittle Diabetic Patients Unresponsive to Optimized Subcutaneous Insulin Therapy (Continuous Subcutaneous Insulin Infusion)—JOHN PICKUP, GARETH WILLIAMS, PATRICIA JOHNS, AND HARRY KEEN—279
Timolol Treatment After Myocardial Infarction in Diabetic Patients—TORSTEIN GUNDERSEN AND JOHN KJEKSHUS—285

The Presence of Retinopathy in Patients with Secondary Diabetes Following Pancreatectomy or Chronic Pancreatitis—ANTONIO TIENGO, M.D., Ph.D., TATIANA SEGATO, M.D., GIUSTINA BRIANI, M.D., ANTONIO SETTI, M.D., STEFANO DEL PRATO, M.D., ANTONIO DEVÍDÉ, M.D., DOMENICO PADOVAN, M.D., FLAVIO VIRGILI, M.D., AND GAETANO CREPALDI, M.D., Ph.D.—**570**
Lipoprotein Composition in Individuals with Impaired Glucose Tolerance—BRUNELLA CAPALDO, M.D., LOREDANA TUTINO, B.Sc., LIDIA PATTI, B.Sc., OLGA VACCARO, M.D., ANGELA RIVELLESE, M.D., AND GABRIELE RICCARDI, M.D.—**575**
Uncontrolled Diabetes Mellitus in Adults: Experience in Treating Diabetic Ketoacidosis and Hyperosmolar Nonketotic Coma with Low-Dose Insulin and a Uniform Treatment Regimen—PATRICIA CARROLL, M.D., AND ROBERT MATZ, M.D.—**579**
Insulin Resistance in Fat Cells from Insulin-treated Type I Diabetic Individuals—P. LÖNNROTH, M.D., G. BLOHMÉ, M.D., I. LAGER, M.D., L. E. TISELL, M.D., AND U. SMITH, M.D., Ph.D.—**586**
The Validation of a Diabetes Patient Knowledge Test—GEORGE E. HESS, M.A., AND WAYNE K. DAVIS, Ph.D.—**591**
Teledyne Sleep Sentry: Evaluation in Pediatric Patients for Detection of Nocturnal Hypoglycemia—KARLA A. HANSEN, R.N., B.S.N., AND STEPHEN C. DUCK, M.D.—**597**

BRIEF COMMUNICATIONS

Fournier's Syndrome in a Ketoacidotic Diabetic Patient After Intrascrotal Insulin Injections Because of Impotence—KEVIN O'DELL, B.A., AND JOSEPH SHIPP, M.D.—**601**
Profiling Self-Monitored Blood Glucose Results with the Personal Microcomputer—DANA E. WILSON, M.D., AND DANA H. CLARKE, M.D.—**604**

REVIEW

An Approach to the Prevention of Blindness in Diabetes—WILLIAM H. HERMAN, M.D., STEVEN M. TEUTSCH, M.D., M.P.H., STEPHEN J. SEPE, M.P.H., POMEROY SINNOCK, Ph.D., AND RONALD KLEIN, M.D.—**608**

EDITORIAL

Use of Visidex for Self Blood Glucose Monitoring—ROBERT A. RIZZA, M.D.—**614**

LETTERS

Preference of Youth Between Two Home Glucose Monitoring Systems (Chemstrip/Visidex)—ARLAN L. ROSENBLOOM, M.D., AND TONY KRISEMAN, M.D.—**616**
Evaluation of Visidex—BERNADINE Z. PAULSHOCK, M.D., MARYBETH SNYDER, R.N., M.S., RICHARD I. BERNSTEIN, M.D., ALAN L. RUBIN, M.D., SHELDON J. BLEICHER, M.D., MOHAMMED CHOWDRY, M.D., IRENE HRAMIAK M.D., AND JANE WORTHMAN, B.S.—**617**
Home Blood Glucose Monitoring: Two Views—CHARLES E. OSADJAN, M.D.—**618**
Not All Medicines (Or Patient Education Programs) Are the Same—JAMES W. PICHERT, Ph.D.—**618**
Defining and Evaluating Diabetes Patient Education—ROBERT M. ANDERSON, Ed.D.—**619**
Evaluation of Patient Education: A Reply—TIMO KORHONEN, M.D., JUSSI K. HUTTUNEN, M.D., AND ANTTI ARO, M.D.—**620**
Efficacy of Continuous Subcutaneous Infusion of Sulfated Beef Insulin—N. W. RODGER, M.D., AND J. DUPRE, M.B.—**620**
CSII: Scale Units to Insulin Units—D. P. WILSON, M.D., AND R. K. ENDRES, M.D.—**621**
Prediction of Diabetic Retinopathy from Color Vision Data—PIERRE LOMBRAIL, M.D., PASCALE GERVAIS, M.D., AND GÉRARD CATHELINEAU, M.D.—**621**
Acuphobia in a Long-standing Insulin-dependent Diabetic Patient Cured by Hypnosis—DAVID S. H. BELL, M.D., SAMUEL T. CHRISTIAN, Ph.D., AND REX S. CLEMENTS, JR., M.D.—**622**
Ketoacidosis Without Hyperglycemia During Self-Monitoring of Diabetes—PATRICK M. BELL, M.R.C.P., AND DAVID R. HADDEN, F.R.C.P.—**622**
Urinary Cortisol-Creatinine Ratio and Nocturnal Hypoglycemia—A. E. OHWOVORIOLE, M.D., I. M. NAIRN, F.I.M.L.S., AND J. D. BAIRD, M.D.—**623**
